4. Dr Mrunal Khilare

Date – 30/9/2023

Final year students of Dr Deepak Patil ayurvedic Medical College visited the Sri Sri College of Ayurvedic science and Research (SSCASRH) and Hospital who were welcomed and enlightened by Principal Dr Ganesh Puttur and Vice principal Dr.Arpana Desai.

SSCASR has an independent campus located in the picturesque Panchagiri Hills opposite to the Art of Living International Ashram, Kanakapura Road, Bangalore.

Speaking about the Infrastructure, at SSCASRH students are provided with excellent infrastructure facilities to aid them in their studies and all round development . The facilities include a well equipped library,museum and hostel complex.

The college has a highly qualified and experienced teaching faculty and training staff,who have established names in their respective field.

The college has a well established library with over 5000 titles in ayurveda and other medical books for references. Apart from this the college the college has a separate digital library facility with internet browsing, helinet connection with access over 2000 medical journals.

Speaking about the herbal garden , about 500 plants species rare and local species are spread in an area of 6 acres. This helps the students to get familiarized with each species of medical herbs.

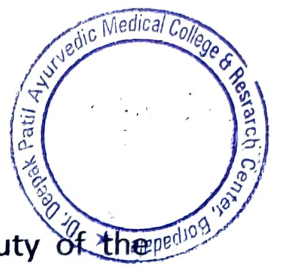

Date :- 30/9/2023

Final year students of Dr Deepak Patil ayurvedic medical College went on a expedition to Visvesvaraya Industrial and Technological Museum, Bangalore (VITM).

VITM ,a constituent unit of National Council of Science Museums (NCSM), Ministry of Culture, Government of India, was established in memory of Bharat Ratna Sir M. Visvesvaraya. A modest building with a built up area of 4000 sq. mtrs., was constructed in the serene surrounding of the Cubbon Park, housing various industrial products and engines, which was opened by the first Prime Minister of India, Pandit Jawaharlal Nehru on 14.07.1962.

The first gallery set up at VITM on the theme Electricity was opened to the public on 27.07.1965 by the then Union Minister for Information & Broadcasting & Bharat Ratna Indira Gandhi.

The meuseum includes of the legendary models such the Wright's brother aeroplane ,the Mars rover, Watson and crick model and many more.

Date:- 30/9/2023

After the museum the students went to enjoy the natural beauty of the Lalbagh Botanical Garden, Bangalore, Karnataka.

Lalbagh is one of Bengaluru's major attractions. A sprawling garden situated in a 240 acres piece of land in the heart of the city, Lalbagh houses India's largest collection of tropical plants and sub-tropical plants, including trees that are several centuries old. Exhibits like the Snow White and the seven dwarfs, and a topiary park, an expansive lake, a beautiful glasshouse modelled around the Crystal Palace in London adorn the park giving it a surrealistic atmosphere. A watchtower perched on top of a 3000 million years old rocky outcrop (which is a National Geological Monument), built by Kempegowda, the founder of Bengaluru also adorns the picturesque garden.

The main attraction is the Glass house, Lalbagh Glass House is a giant palace like glass and iron structure, inspired by Crystal Palace in London's Hyde Park. Lalbagh glass house was built in 1989 and renovated in 2004 and remains the primary attraction for visitors of Lalbagh.

At morning all the students went to visit the the historic Tipu Sultan palace, Bengaluru, Karnataka and joined the "Swachhata diwas abhiyan" as we celebrate Swachhata diwas on this day. The theme we celebrated is "Garbage free Bharat".

Under the pilgrimage tourism we visited the divine destination of lord Radha Krishna which is Iskcon vaikuntha hill in banglore. This stone temple is constructed in Dravidian type of architecture. It was all divine and peaceful experience visiting there.

We further started our journey towards "The Mysore city".

Befor reaching the Mysore city we visited the small village "Srirangam". This whole village was the territory of the Tipu Sultan. It is also the place where Tipu Sultan had his last breath. And there was a beautifully carved archeological temple of Lord Vishnu called "The Ranganath Swamy temple". It is one of the oldest surviving active temple present in South India. It is also the world's largest functioning Hindu temple. After taking the blessings we further continued our journey towards the Mysore city.

At beautiful evening all the students went to the most beautiful Brindavan garden and enjoyed the sightseeing.

Date - 2/10/2023

Next day we continued our journey towards the heavenly city "Ooty". On the way to Ooty we visited the Bandipur National Park which is located amidst the picturesque surrounding of the towering Western ghats on the Mysore-Ooty highway in Karnataka. This wildlife sanctuary is greatly famous for reserving the tiger and its rare beautiful flora and fauna. Although we weren't able to see tiger but we saw the deers, elephants etc and lots of sandalwood trees there.

On afternoon we reached to Ooty and went to "Tea and chocolate factory". As we saw eye-catching Tea fields on way all the students were very excited to watch tea making process. Dodabetta Tea Factory, at Coonoor, TamilNadu was founded in the year 2005, and is well managed by Mr. N.K. Krishnamoorthy, former Member of Tea Board. Factory sprawls over an area of 1 acres in Ooty the midst of the many blue hills of the Nilgiris, second largest hill station, bounded by tea plantations, at an altitude of 1839 metres. Our production capacity is 30 tonnes per month. Having about 35 years of experience in Tea field operations has passion to set a Tea Museum adjacent to the Dodabetta Tea Factory. As per his desire, he established the Tea Museum on 1 acres at Ooty.

The Tea Museum has been our dreams come true.

We had for long contemplated on the need to enlighten all of us, as residents of one of India's largest tea growing districts, and also our visitors, on the rather exciting story of the evolution of Tea. Having finally decided to go ahead with this rather daunting task, we felt the ideal place to record and present all these wonderful pieces of history, should be the Nilgiris itself. So we got down to the task, but soon realized that just like almost all other aspects of history, the evolution of tea too, was shrouded with numerous versions. After gaining the knowledge about tea making process we tasted the fresh ever tea given by them. After visiting tea factory we went to Government Botanical garden, Ooty. This garden was laid out in 1897 by the Marquis of Tweedale and is spread over 55 acres. Lush green, well maintained lawns, rare trees species (like the cork tree which is probably the only such tree in India, the paper bark tree and the monkey puzzle tree-monkeys cannot climb this tree), a 20 million year old fossilized tree, an Italian-style garden bordering a clear pool, a vast variety of flowering bushes and plants in myriad hues (exotic and ornamental), fern house with a vast range of ferns and orchids, are some of the many highlights of this garden. Students were mesmerized by the beauty of that garden. It was all worth watching it

CIMS PARK

Home to 1000 plus species of colourful and vibrant flowers, the Sim's Park is a well-maintained botanical garden where you can enjoy nature at its best along with exploring the breathtaking landscapes. Situated on the northern side of Coonoor, the park offers a perfect getaway for all those who are looking to escape from the metro life. It is a great base to discover the hidden secrets of rare exotic plants.

Spread over an area of 12 hectares of land, the park is mainly divided into 4 sections as a small Lily pond, a rose garden, a boating area and a flowering plants area. It boasts of an array of trees introduced from different parts of the world and has walkways lined up with beautiful flowers. Other highlights of the park include Handsome Ornamental tree, Queensland Karry Pine and Rudraksha Tree.

Toy train – Connor to Ooty

Now comes the highlight of the trip the toy train for which the students as well as the teachers were quite excited.

The Nilgiri Mountain Railway (NMR) is a 1,000 mm metre gauge railway in Nilgiris district, TamilNadu, India, built by the British in 1908. The railway is operated by the Southern Railway and is the only rack railway in India.

The railway relies on its fleet of steam locomotives. NMR switched to diesel locomotives on the section between Coonoor and Udhagamandalam i.e Ooty Local people and visitors led a campaign to return to steam locomotives in this section.

The entire Nilgiri Mountain can be viewed which gives a delight to your eyes.

Final year students of Dr Deepak Patil ayurvedic Medical College visited the GMC Mysore hospital and college which was guided under the presence of Dr.Altaf and Principal Dr K .SRadhakrishnan Rama Rao.

The 110 years old institution, Government Ayurvedic Medical College, Mysore is not merely an educational institution but a centre of excellence in the field of Ayurveda.

College which is attached with hospital is situated in picturesque heritage building, a best library with 17,440 books including some of the classics. Well laid-out classrooms, laboratories and workrooms create solemn atmosphere for learning.

The hospital is one of the important health landmark in the city. In fact the building is declared as heritage building and is right in the centre of the city. With 128+40 (GAMC Mysore Hospital & Govt Panchakarma Hitech Hospital) beds, it caters the need of the citizens of Mysore and villages around Mysore.

As the college is in the heart of city of Mysore ,it also got situated in our centre of hearts.
